

SYNTHETIC RESINS

 Synthecoat s.l.u

- ❖ **Synthecoat** · designs, produces and delivers high performance resins for the coating industry.
- ❖ Our product portfolio of waterborne and solventborne resins allows us to be present at a wide range of coating applications, including industrial and decorative paints, metal & wood coatings, cork and rubber as well as leather and textile.

Poli synthanol · modified saturated polyester resins, solvent borne and 100% solids.

Poli synhtal · short, medium and long oil alkyd resin.

Poli synthane · poly isocyanate resins for 1K and 2K systems. Solvent based.

Poli synthan · Polyurethane pre-polymers.

Poli synthacril · Solvent borne hydroxylated acrylic resins for 2K systems.

Poli synthemul · Water based styrene acrylic emulsions.

Accuacril · Acrylic emulsions (APEO free, Self cross linkable,...).

Accuadur · Water based poly isocyanates for 2K systems.

Accuafer · Water based acrylic resins for anticorrosive coatings.

Accuapox · Water based epoxy-acrylic resins for anticorrosive coatings.

Accuapur · water based polyurethane dispersions.

Accuapol · Water based polyesters.

Accualuv · Water based urethane acrylic dispersions for UV curing systems.

Synthaid · additives for solventborne systems.
